Discussion on Community Issues

The key issue discussed by members is the accessibility of engaging in the planning process for communities, especially in relation to:

- strategic housing developments;
- unfinished housing estates
- the perception of a democratic deficit within the planning processes

The Linkage Group believes that Fingal County Council have a role in supporting the capacity building of communities to increase their knowledge in this area to facilitate them in engaging with the planning and development process. The LG is to write to FCC inviting them to engage on this.

The LG also discussed the inaccessibility of the An Bord Pleanala website and will write to them re same.
