

Dear members,

We're back!

Linkage group meetings will begin again in September, the dates are listed below. We hope to have motions to submit to the December SPC. Please register your interest and make every effort to send a representative from your group.

What happened?

You may have noticed that the Fingal PPN have missed a few meetings this year.

Adam Rudden did a great job holding down the fort in 2022. His departure earlier this year added to an already depleted staffing situation. We're recruiting to fill the Vacancy of Resource Worker for the PPN. Hopefully we will find a new person to get us back up and running again. In the meantime, our support workers Geraldine Whelan and Lisa Moran, together with some very hard working Secretariat members, are toiling away to get all groups back on track.

The PPN is our vehicle for members of the community to influence Council Policy directly. We hope to put a programme for training in place for 2024 which will help our PPN representatives to use their power to the greatest effect. With power comes responsibility, so expect homework!

Together we can use our experience on the ground to help to make Fingal the very best place to live, today and tomorrow. Our thanks to Fingal County Council for helping us through this difficult time and many thanks to you, the members, for your patience.

Best wishes,

The Secretariat
